

Taming AI Storage Systems

SC 26 Tutorial

Taming AI Storage Systems

Please

1. Clone to your laptop the following GitHub repository:
   https://github.com/NVIDIA/TamingAIStorageSystems

2. Download and install on your laptop:
   https://developer.nvidia.com/nsight-systems

Tutorial Team

Yaki Tebeka
Distinguished SW Engineer, NVIDIA

Brian Pan
Founder and CEO of H3 Platform

Christopher Grossmeier
Sr. Director of Product, DDN

Tony Mongkolsmai
Distinguished SW Engineer, NVIDIA

Holly Wilper
Team leader, NVIDIA

Tutorial Schedule

- Welcome & Introduction
- Overview of AI/HPC distributed storage technologies
- Hands on lab: Compute node workload profiling
- How to choose the right storage and network
- Hands on Lab: Storage system configuration
- Emerging AI storage technologies - part 1
- Morning break
- Emerging AI storage technologies - part 2
- Dynamo & KV-Cache
- Hands on lab: Cluster level profiling
- Recap & Q&A

Lets begin...
